## Article 1 – General Provisions

### 1501 Title

This Chapter 15 (“Chapter” for purposes of this Chapter 15) shall be known, cited and referred to as the “Village of Spring Grove Zoning Ordinance” and shall replace any and all previously stated Village of Spring Grove Zoning Ordinances.

### 1502 Intent and Purpose

1502.1 The purpose of this Zoning Ordinance is consistent with the overall community goals as stated in the Village’s Comprehensive Land Use Plan. This Zoning Ordinance seeks:

- A. To further implement the objectives and goals of the adopted Comprehensive Plan for the Village;
- B. To zone all land in the Village with a view to conserving property values and encouraging the most appropriate use of land throughout the Village;
- C. To protect all areas of the Village from harmful encroachment by incompatible uses;
- D. To establish adequate standards for the provision of light, air, and open spaces;
- E. To prevent the overcrowding of land and undue concentration of population, thereby preventing the development of blight and deterioration;
- F. To lessen congestion in the public streets;
- G. To provide for adequate drainage, control of erosion, reduction of flood damage, and destruction of sensitive and valuable environmental resources;
- H. To foster a desirable pattern of relationships to the mutual benefit of all types of development;
- I. To isolate and control the location of unavoidable nuisance-producing uses.

1502.2 To accomplish the above objectives, the Ordinance further seeks:

- A. To fix reasonable standards to which buildings, structures, and other uses of land shall conform;
- B. To prevent new construction or alteration or expansion of existing construction that does not comply with the restrictions herein;
- C. To provide for the elimination in appropriate situations of existing uses that are incompatible with the character of the districts in which they are located;

- D. To define the powers and duties of the officers and bodies charged with the enforcement of this Ordinance;
- E. To prescribe penalties for any violation of the provisions herein.

### **1503 Authority**

This Ordinance is adopted pursuant to 65 ILCS 5/11-13-1.

### **1504 Scope**

1504.1 Upon the passage of this Zoning Ordinance, a permit shall be obtained from the Village before there can be any change in the use of the land, grade of the land, building of a structure, enlargement or alteration of an existing structure as required by this Ordinance.

1504.2 No building, structure, land, or premises shall hereafter be constructed, altered, converted, enlarged, moved, used, or occupied except in conformity with the provisions hereof.

### **1505 Severability**

If any provision is declared invalid by a court of competent jurisdiction, the effect of such decision is limited to that provision which is expressly stated to be invalid. Such decision shall not affect, impair or nullify this Ordinance as a whole or any part thereof, and the rest of the Ordinance shall continue in full force and effect.

### **1506 Relationship to Other Laws**

Whenever regulations or restrictions imposed by this Ordinance are either more or less restrictive than regulations or restrictions imposed by any governmental authority through legislation, rule or regulations, the regulations, rules or restrictions which are more restrictive or which impose higher standards or requirements shall govern.

### **1507 Effective Date**

This Ordinance shall be in full force and effect after its enactment by the Village Board of Trustees in accordance with the provisions of law until repealed or amended by a subsequent Village Ordinance or resolution or by a federal or state statute, regulation or rule.

## Article 2 – Definitions and Administrative

### 1513 Enforcement Procedures

1513.1 **Notice of Violation Procedure.** The following notice of violation procedure shall be used to enforce this Ordinance.

- A. Whenever there is reasonable cause to believe that a person is violating the provisions of this Ordinance or any plan, order, or condition which has been imposed pursuant to this Ordinance, the Zoning Enforcement Officer shall notify that person of the violation. Such notice shall be in writing and shall be served by personal delivery or by certified or registered mail.
- B. The notice of violation shall describe the violation, shall identify the provision of this Ordinance that is being violated, shall specify what actions must be taken to correct the violation, shall direct the person to correct the violation within a specified and reasonable time period beginning on the date the notice is received, and may indicate that additional enforcement measures may be brought against the person if the violation is not corrected. If the violator can not be determined, then the notice of violation shall be sent to the record owner of the land on which the violation occurs.
- C. Upon receipt of a request for additional time to correct the violation, the Zoning Enforcement Officer may authorize additional time to achieve compliance. Such time extension may not exceed thirty (30) days unless the violator can demonstrate to the satisfaction of the Zoning Enforcement Officer that (1) substantial progress is being made in regard to corrective measures, or that (2) the violation can not be corrected within the specified time period because labor and/or materials necessary to correct the violation are unavailable due to circumstances beyond the control of the violator or property owner.
- D. If the violation is corrected within the time period set forth in the notice of violation, or within the extended period granted by the Zoning Enforcement Officer, then no further action against the violator or property owner shall be taken.

- E. No penalty shall be assessed pursuant to this Ordinance unless and until the person in violation has been notified of the violation in accordance with the provisions of this Section, with the exception of a violation of a stop work order. In the case of a violation of a stop work order, the violator shall be subject to the immediate imposition of a penalty.

## 1514 Penalties and Remedies for Violations

The Village shall have the following enforcement powers to prevent, correct, stop, or penalize a violation of this Ordinance.

### 1514.1 Denial or Withholding of Permits

- A. The Zoning Enforcement Officer may deny or withhold all permits, certificates, or other forms of authorization to use or develop any land, structure, or improvements upon which there is a violation of this Ordinance until such violation is corrected and any associated penalty is paid or otherwise resolved. This provision shall apply whether or not the current owner or applicant for the permit or approval is responsible for the violation.
- B. The Zoning Enforcement Officer may deny or withhold all permits, certificates, or other forms of authorization to use or develop any land, structure, or improvements owned or being developed by a person who created or otherwise caused an uncorrected violation of this Ordinance until such violation is corrected and any associated penalty is paid or otherwise resolved. This provision shall apply regardless of whether the property for which the permit or other approval is sought is the property in violation.

1514.2 **Revocation of Permits and Approvals.** Any development permit, certificate, or other form of approval required under this Ordinance may be revoked or a stop work order may be issued when the Zoning Enforcement Officer determines that there is a departure from the approved plans, specifications, or conditions required under the permit or there is a violation of this Ordinance. Written notice of such revocation or stop work order shall be served upon the property owner, agent, applicant, or other person to whom the permit was issued, or shall be posted in a prominent location at the place of violation. No work or construction activity shall proceed after the revocation notice or stop work order is served. The procedure for issuance of a stop work order shall be provided herein.

### 1514.3 Penalties

- A. Any person or business entity violating any of the provisions of this Ordinance shall be guilty of a petty offense and shall be deemed guilty of a separate offense for each and every day or portion thereof during which any

violation is committed. Upon a finding of guilt on any violation by the Zoning Enforcement Officer, such person shall be punished by a fine of not less than \$50.00 and not more than \$750.00 for each offense per day.

- B. Thereafter, if the person or business entity cited for the violation has failed to pay, settle or adjust the fine specified herein, then such citation shall be filed in the Office of the Clerk of the Circuit Court of the 22nd Judicial Circuit, McHenry County, Illinois or other court of competent County jurisdiction and such process as necessary shall commence.

#### 1514.4

**Stop Work Orders.** Whenever any building or structure or part thereof is demolished, constructed, reconstructed, altered or repaired in a hazardous manner, in substantial violation of any provisions of this Ordinance, or in a manner that endangers life or property, the Zoning Enforcement Officer has the authority to issue a stop work order for the specific part of the work that is in violation or presents the hazard, or endangers life or property. The following is the procedure for issuing a stop work order:

- A. A stop work order may be issued by the Zoning Enforcement Officer for the site on which the violation has occurred or is occurring.
- B. The stop work order shall be in writing directed to the person doing the work and shall state the specific work to be stopped, the specific reasons therefore, and the conditions which must be met in order for the work to resume.
- C. Notice of the stop work order shall be served on the person doing the work or conducting the activity in violation of this Ordinance by personal delivery or by certified or registered mail, and shall be posted on the site. Said notice may also be served by registered mail or certified mail to the property owner or contractor if they are responsible for the work being done.
- D. When imminent danger or hazard is likely to occur as a result of the work, a stop work order may be posted on the property and shall be effective immediately.
- E. Upon receipt of such an order or the posting of such an order on site, the work described in the stop work order shall immediately cease.
- F. The Zoning Enforcement Officer shall monitor compliance with the stop work order and determine if the conditions for resumption of the work have been met. If said conditions have been met, the stop work order shall be rescinded.
- G. Failure to comply with a stop work order or removal of a stop work order posted on a site is a violation of this Ordinance.

### **1515 Persons Subject to Penalties**

The owner or tenant of any building, structure, premises, or part thereof, and any architect, builder, contractor, or agent, or other person, who commits, participates in, assists in, or maintains a violation of the provisions of this Ordinance may be found guilty of a separate offense and be subject to the penalties established herein.

### **1516 Remedies Cumulative**

The remedies provided for violations of this Ordinance shall be cumulative and in addition to any other remedy provided by law, and may be exercised in any order.

When the admissibility of evidence depends upon an interpretation of substantive law, the Chairperson of the Planning and Zoning Commission shall determine whether said evidence is admissible and he or she may consult with the Village Attorney to make the determination of admissibility.
- B. **Public Hearing Parameters.** A public hearing and the notification requirements thereof shall comply with this Ordinance unless altered by the provisions set forth herein.
  - 1. The Village reserves the right to engage the services of a court reporter to provide transcripts of the hearing. The cost associated with such transcripts shall be at the petitioner's expense and the proceedings shall not move forward nor shall a final vote be taken until said costs are paid.
  - 2. If the Village's facilities are not sufficient to accommodate the number of people expected at the hearing, the hearing may be held at another site. In such circumstances, the Village may rent appropriate

facilities and/or equipment and engage the services of appropriate personnel necessary to conduct a proper hearing. The cost associated with such arrangements shall be at the petitioner's expense and the proceedings shall not move forward nor shall a final vote be taken until said costs are paid.

3. All testimony presented at the hearing shall be under oath or affirmation. Any person appearing at the hearing shall have the right to give testimony and to comment on the petition. Any person testifying shall be required to state their name and address, and if applicable, who they are representing. Any person appearing at the hearing shall also have the right of reasonable cross-examination and the scope of the cross-examination shall be determined by the Chairperson of the Planning and Zoning Commission in consultation with the Village Attorney.
4. The Planning and Zoning Commission reserves the right to limit testimony, questions, comments and cross-examination to prevent argumentative comments or personal attacks, to maintain order and decorum during the hearing process, and to prevent irrelevant and unnecessarily repetitive materials in the record. The members of the Planning and Zoning Commission reserve the right to at any time ask questions of or reply to any party testifying in order to clarify an issue, statement, or fact.
5. Written statements regarding an application may be accepted by the Planning and Zoning Commission until such time as the public comment portion of the public hearing is closed.
6. Any person has the right to be represented by an attorney at the hearing. Such individual shall also have the right of reasonable cross-examination and the scope of cross-examination shall be determined by the Chairperson of the Planning and Zoning Commission.
7. The Village, in its sole discretion, shall have the right to determine whether information provided with an application can be evaluated by the Village Staff. If this cannot be accomplished, the Village shall have the authority to retain the services of one or more professional consultants or experts to assist in the review of the petition. Any and all costs for such services shall be at the petitioner's expense and the proceedings shall not move forward nor shall a final vote be taken until said costs are paid. Such consultants or experts shall have the same standing to testify and to be cross-examined as any other witness at the hearing.
8. Members of the public may obtain copies of any documents filed with the Village upon application and payment to the Village of the actual

cost of reproduction in accordance with the Freedom of Information Act.

  - Planning and Zoning Commission examination and questioning of petitioner, witnesses, and other evidence.
  - Zoning Enforcement Officer examination and questioning of petitioner, witnesses, and other evidence.
  - Presentation of testimony or other evidence by member of the public attending the hearing. The petitioner may examine and question those members of the public submitting such testimony and other evidence.
  - Re-examination of the petitioner by the Planning and Zoning Commission, if necessary.
- D. **Decision.** At the conclusion of the evidentiary portion of the public hearing, the Planning and Zoning Commission may move to close the public comment portion of the hearing or continue the hearing to a specific date, time and location. It may then deliberate its decision on the evidence presented. A decision shall be prepared, accompanied by relevant findings of fact and shall be based on the record and pursuant to this Article. Such a decision shall not be valid unless approved by a majority of a quorum of the Commission members.
- The Village Board may adopt the Commission's findings or findings different from those of the Commission.
- E. **Additional Evidence or Testimony.** Evidence or testimony may only be presented at the public hearing. If the Commission requires additional evidence, the public hearing shall be re-opened and conducted in accordance with this Section.

## Article 7 - Off-Street Parking and Loading Standards

### 1535 Purpose

The purpose of this Article is to provide regulations which prevent, alleviate, or minimize congestion on public streets, and promote the public safety and welfare through the establishment of minimum requirements for off-street parking and loading in accordance with the use of property and its zoning designation.

### 1536 Scope

The off-street parking and loading provisions of this Article apply as follows:

- A. All buildings, structures, and land uses, as well as all modifications of buildings and structures which increase the total floor area or the intensity of use, established and initiated on or after the effective date of these regulations shall be provided with accessory off-street parking and loading facilities as required herein. Any permit for the construction or enlargement of a building or structure, issued before the effective date of this Ordinance, shall comply with requirements in effect at the time of permit issuance.
- B. Whenever the existing use of a building or structure is changed to a new use, parking and loading facilities shall be provided as required for such new use.
- C. If a building or structure is decreased in size because of a reduction in the number of dwelling units, floor area, seating capacity, employees or other units of measurement, the required number of parking and loading spaces may be decreased proportionately in accordance with the provisions of this Ordinance.
- D. If a building or structure is enlarged or if a new building is constructed, the required number of off-street parking and loading spaces shall be increased as provided herein.

### 1537 General Provisions

1537.1 Every development or change in use shall provide off-street parking and loading facilities in accordance with the provisions of this Article.

1537.2 Any application for a permit for a new or enlarged building or structure, or for an expanded or changed use, shall include a site plan drawn to scale and fully dimensioned. The site plan shall depict such new or enlarged building or structure, along with parking and loading facilities necessary to fulfill the requirements of these regulations.

- 1537.3 **Existing Parking and Loading Facilities.** Accessory off-street parking and loading facilities located on the same lot or parcel as the building being served or the use being served and which existed as of the effective date of this Ordinance may not be reduced in number unless the number of said spaces exceeds the requirements of this Article for equivalent new construction. If this is the case, said spaces shall not be reduced below the number required herein for such equivalent new construction.
- 1537.4 **Permissive Parking and Loading Spaces.** Nothing in this Article shall prevent the establishment of off-street parking or loading facilities to serve any existing buildings or uses of land as long as such facilities fully comply with the provisions of this Article, except that off-street parking areas accessory to existing multiple-family structures may not be located off the lot containing the main use, unless on adjacent land.
- 1537.5 **Computation of Spaces.** When determination of the number of off-street parking and/or loading spaces required by this Article results in a requirement for a fractional space, any fraction of one-half or less may be disregarded and any fraction in excess of one-half shall be counted as one parking space or loading space.

### 1538 **Joint Parking Facilities**

- 1538.1 Off-street parking facilities for more than one building, structure, or use may be combined and provided collectively in any zoning district in which separate parking facilities for each constituent use are permitted. When such combined parking is provided, the overall number of parking spaces may be reduced by ten (10) percent.
- 1538.2 For joint parking facilities for separate uses having non-overlapping and non-conflicting parking demands, the required number of spaces for both uses may be reduced by up to twenty five percent (25%). Such a reduction shall be approved only if the Building and Zoning Officer determines that the reduction will not result in increased congestion or violate the purpose and intent of this Article.

### 1539 **Off-Site Parking Facilities**

When required accessory off-street parking facilities are provided elsewhere than on the lot on which the principal use is served, they shall be in the same right of possession either by deed or long term lease, as the property occupied by such principal use, and shall be within the same zoning district as the principal use. Such off-street parking facilities must be within 500 feet of the main entrance of the principal use being served, and except for the "B-1" Central Business District must be in the same block so that no public street lies between the off-site parking spaces and the principal use. The owner of the principal use shall be bound by a covenant filed with the McHenry County Recorder of Deeds requiring the owner and the owner's heirs and assigns to maintain the required number of parking spaces during the existence of the principal use, except as permitted herein.

All new uses in the “B-1” Central Business District shall be reviewed by the Zoning Enforcement Officer to insure there is adequate parking for the proposed use. No use shall be allowed if the Zoning Enforcement Officer determines that parking for the use is inadequate due to the type or intensity of the use and the potential impact upon the neighborhood.

**1540 Use of Parking Facilities**

- 1540.1 All parking, storage and display-for-sale of passenger vehicles, motorcycles, commercial vehicles, recreational vehicles, trailers and shipping containers in any district shall be on asphalt, concrete, or other approved permanent hard surfaces commonly used for ingress and egress.

Such vehicles may not, however, be parked over-night in parking lots accessory to commercial or industrial uses. Such vehicles include but are not limited to motor homes, mini motor homes, travel campers, camping trailers, truck campers, van campers, and any towed recreational equipment such as trailers, boats, motorcycles, and snowmobiles.
- 1540.10 All recreational vehicles shall have current license plates and be in operable condition.
